Participating Providers

CCOPERATIVE
CARE

*Regional Health Care
Provider Network*

This directory is subject to change at any time. For the most current listing of CooperativeCare providers, please visit our website at www.kynetworks.com.

When your health care coverage is through the CooperativeCare Regional Provider Network, you have ready access to a full range of primary and specialized medical care, plus diagnostic and support services. When highly specialized care is needed that is not available from within the local network, your doctor may refer you to a CooperativeCare tertiary provider*.

If you are referred for services that are not available within the local primary network, please request a referral to a CooperativeCare tertiary provider. Failure to use the services of a CooperativeCare tertiary provider may require you to pay a higher portion of your medical bills, as defined by your benefits plan. To clarify whether your referred tertiary provider is affiliated with CooperativeCare, please call us at (859) 239-2421 or (800) 843-2597.

If you choose, or are referred to a physician or hospital outside the network for services that are available in-network, you can expect to incur higher out-of-pocket expenses.

This directory lists doctors, hospitals, other providers and services within the CooperativeCare network. You are eligible for maximum coverage according to the terms of your health care plan when you receive services from any of the providers listed in this directory.

If you have questions about your coverage, please call your third-party administrator or CooperativeCare at (859) 239-2421 or (800) 843-2597.

* A tertiary provider is a hospital or medical center that offers highly specialized services that are not offered within the local network.
